

Assignment 2: Database Design (30%)

Instructions

Task 1

[10 points] Identify 10 problems in the following design.

Task 2

[20 points] Fix the problems in this design to make it 3NF. Using Visio, create Entity Relationship Diagram (ERD) with the normalized design.

Submit

1. Prepare one Word document with list of design problems for Task 1.
2. Using Visio, prepare ERD solution for Task 2.
3. Put both files in one folder *LastName_FirstName_Lab_2* and zip the folder. Upload the zip file to the Assignment 2 on Brightspace before the due time.

Evaluation

This assessment is graded out of 30 points.

Learners may receive partial scores or a zero for unacceptable work.
